### **Loadbearing Specifications**

<b>Column Diameter</b>	<b>Structural (Static) Load</b>
8"	12,000
10"	16,000
12"	18,000
14"	22,000
16"	24,000
18"	26,000
24"	30,000

Testing was conducted under controlled conditions. Pressure was applied equally on the full diameter of the column. For load capacities under specific conditions, please refer to your structural engineer.
